geisha boy

I could see his cock from even this far away. The young manhood pressing against his jeans beckoning to me through the busy afternoon Tokyo traffic.

I'd been in Japan nearly a month sucking my way slowly across the country but today I'd decided to abstain. The small Japanese cocks had become boring to me and the idea of leaving the country for one that featured larger shafts was appealing to me.

And then I saw this young, blonde God. He and I, staring at one another over the traffic and over the short, black haired Japanese as they went about their business.

He looked about 16, slenderly built, with hair down to his shoulders blowing in the Shinjuku breeze. He wore a tight, transparent tank shirt and blue jeans that looked as if they'd been painted on his slender frame.

I could tell that his cock was tucked up in his underwear because it stood in bold relief just to the left of his fly. Even soft, it looked huge. Huge even from this far away.

As I watched, he crossed the street at the light and came towards me moving with the lithe grace of a young wild panther. He waved as if afraid I would leave. I couldn't believe he wanted me. A boy like him could have anyone he desired.

"You're American, aren't you?" His voice was soft and caressing. I immediately began to get hard.

"Yes. Are you?"

"Yeah. My dad's with the Air Force stationed at Tachikawa. This is the first time I've been in Tokyo. We just got here a couple of weeks ago."'

I suggested we go in a nearby coffee house and talk and get out of the way of the bustling crowd. The place was gay but wouldn't be too crowded at this time of day. The booths were set up so that you had to sit beside the one you were with instead of across from one another. And the seats were small, therefore very intimate. Just the place to get acquainted with my new friend.

He kept up a steady stream of chatter touching my thigh as he talked. I wondered if he was gay. If he knew what he was doing because if he continued I'd cum right in the booth.

And then he started to massage the inside of my thigh, his slender hands slowly moving up towards my throbbing prick. He cupped it, tracing its length with his thumb.

His brilliant, blue eyes stared into mine as he said, "You've got a nice cock. I like older men and when I saw you, I knew you were just right. You can touch me too."

As he said this he un-zipped my fly and pulled my pulsating meat out, slowly masturbating me.

I heeded his suggestion that I touch him and almost came. His cock was the biggest I'd ever touched. It must have been eleven inches long and 4 inches around. As I rubbed him through his jeans I was afraid to un-zip him and bring it out in the open.

Finally I did though. It was a virgin white, not turned a light brown as most older men's do, and a small pearl drop of cum glistened at the tip of the massive head. I ran a finger across the top collecting the cum and then sucked it in my Sweet, sweet nectar. I kept the finger in my mouth for a moment to savor the sweet taste.

"What's your name?" He asked.

"Jon. And your's?

"Terry."

"How old are you Terry?"

"I was thirteen two days ago. Most people think I'm older. Especially with that big cock you're holding in your hand

He licked his lips and asked me, "can I suck you in here? The police won't come or anything? I don't think I can wait any longer. It's been so long since I've had a mans milk."

I told him the place was gay and that stranger things had happened here.

He sighed and leaned over my crotch. I pressed back against the booth, letting go of his cock, so that his head would have more room in the cramped area.

His warm tongue touched the top of my cock, slowly snaking around the shaft and under the tender edges of the glans. His lips closed over the top inching down the shaft. It seemed incredible but his small mouth slowly engulfed my entire cock, with his lips finally buried at my balls. I could feel the bones of his throat stretching to accomodate the tip of my meat.

"Oh, suck me Terry. That's so good, Take it all." I was trying to keep my voice down, not to attract too much ghoulish attention from the other patrons.

The young boys blonde hair swayed back and forth as his mouth began to speed up the sucking motions. I ran my fingers through it, finally touching the smooth sides of his never shaved cheeks feeling my cock pressing against them from the inside.

"I'm coming Terry. I'm coming," I groaned. His mouth backed off my cock until only the head was being sucked. His tongue continued to trace the outline of the glans waiting to catch the sperm as it burst forth.

I could almost feel it as it began. First a small trickle coming from my toes building up to a surging river as it headed for the small opening in the head of my cock.

My hot white cum poured into his waiting mouth and he groaned as he began to swallow my essence. He didn't gag as newcomers to cocksucking many times do. He backed off to suck just the top so he could get it all, still licking the glans with his tongue.

Even though I'd cum, I still had a boner and for a few minutes he still sucked it, now going all the way down the shaft and then back up, to milk the last few drops.

Finally he sat up and kissed me, thrusting his tongue into my mouth, letting me have the taste and feel of my own cum.

And then he transferred his attentions to my ear, blowing softly in it and tenderly licking the lobe. He began to whisper.

"Let's go to your place. I don't have to catch the subway home till eleven tonight. Let's go to your place so we can really make love."

We managed with some difficulty in getting our still stiff pricks back in our pants. As we left the coffee house, we could feel the envious, horny stares of the other patrons.

The subway train was crowded with the five o' clock rush forcing us to stand face to face with our crotches pressed together. Our hard cocks kissing through the material of our pants. Neither one of us spoke through the trip or the walk from the station to my hotel.

As I locked the door behind us, Terry turned to me and embraced me, laying his head against my chest. I held him and kissed his neck, slowly running my hands down his trim, hard sides and back.

"Let me undress you Terry," I said as I bent over and slipped off his loafers and then his socks. I kissed his foot, licking between his toes and finally sucking each toe leaving a wet trail behind. And then the other foot.

I stood up, looked into those brilliant, blue eyes and got lost in their depths. He was one of the most extraordinary boys I'd ever met. I couldn't believe he was only thirteen.

I asked him how old was he when he first had sex with another guy.

"I've always loved to suck cock. Since I was six or seven. I'd hang around older boys, fifteen or sixteen, and suck their cocks. I let a guy fuck me the first time when I was nine. It hurt a little but I liked it anyway. I've always been very horny and living on Air Force bases has made it easy. There's a lot of gays in the military'..

I kissed him thinking of how times had changed. Kids today knew more at 12 than I'd known at eighteen. It saddened me thinking of my wasted years. But I was glad that Terry would never know the frustration I'd gone through. His generation would be the first happy gay generation. They would change the world.

I kissed those soft lips trying to tell him how much

I loved him. For I had realized that I did love him. Maybe nothing would come of it, but I still loved him. Even if this one day would be the only one I would ever spend with him.

Slowly, I pulled the tight tank top up to his shoulders and over his head. His skin was like velvet. And white, as if he'd never been out in the sun. The two nipples with their light brown corona hardened under my gaze and my mouth as I took first one, then the other between my lips.

I ran my tongue down his chest beginning with the hairless area between his breasts. Down to his navel kissing each inch of flesh between. I fucked his naval with my tongue, thrusting deep into the cavity, licking clean the lint gathered there.

I could feel his tight buttocks clench with tension under my probing hands.

His thirteen year old cock hardened and was so huge in its erectness that it stood up over the top of his low slung jeans. At least four inches protruded up from his pants. past the wide leather belt nearly to his navel brushing the sensitive underside of my tongue as I licked the termination point of his naval cord.

I ignored it, knowing this would drive him wild.

Instead, I ran my hands over his butt, down the back of his legs and between his tense thighs. I could feel him begin to tremble. As he spoke his voice seemed to catch in his throat. "I . . .I don't know if I can stand up any longer." He laughed a trembly laugh. "I, I feel as if I'm going to faint."

I didn't answer. I brought my hands around to his belt buckle and shakily unfastened it. As I undid the button and slowly pulled the zipper down I could feel his throbbing manhood pressing against my fingers. His cock in front of my lips was driving me wild with desire. But I didn't touch it. Didn't kiss it. Didn't suck it. Instead, I pulled the tight pants down to his feet and then off.

I leaned back on my knees and stared at this grecian god before me. His underwear were very brief. So brief that they barely contained his huge balls. His penis straining up and totally outside the transparent silk briefs.

But still I didn't touch his cock. The growing anticipation would make the wait worthwhile. His prick, its massiveness, forced the pants about two inches away from his flat, rock hard abdomen. With my teeth, I gripped the silk material and inched them slowly down his legs and to the floor.

He stood nude in his innocent puberty. His slim young body was almost totally hairless except for a faint, soft yellow down around his penis. His penis. His cock. His prick. His meat. His tool. My mouth began to water at the sight in anticipation of the taste of the cum. I could feel a growing yearning within me to throw myself against the steel pillar swaying there.

His cock was really nearly eleven inches long and it would take both hands to completely encircle it. Its whiteness enthralled me. The only color to it were the soft, pulsating veins, pulsating veins that gave it that rock hardness.

His balls hung heavy in their sac. His every move causing them to rustle slowly with a life of their own. I could cup both hands together and still those gigantic balls would overflow my palms. With a sac and nuts that huge. I thought to myself, he must cum a gallon of hot, salty fluid. My own eight inches were straining up against my stomach as I stared at him. His cock made me look like a midget.

I leaned forward and began kissing the inside of his thigh, feeling the heavy weight of his nuts against my forehead and nose.

My tongue caressed his velvet skin leaving a wet, shiny trail behind as I moved up the soft pubic down, It was like licking the skin of a freshly picked peach. Not hard, pinlike pubic hair but soft down that tickled the tongue.

Terry began to moan. "Oh Jon. You're driving me crazy. My cock is going to burst. My cum will blow a hole in the ceiling. Oh... Oh oh Jon."

My mouth left the pubic down and traced a pathway down to his hairless balls, licking, sucking. They were so huge I couldn't get even one of them in my mouth. But I tried, gasping, I knew I couldn't told off much longer. I wanted that cock in my mouth. I wanted it to batter its way down my throat.

That time was now. I... couldn't wait...couldn't wait... any longer. My mouth began the arduous climb to the top to Mount Olympus. Slowly, the long journey began. From the balls, to the base of the manhood. Slowly up the trembling shaft. As my lips reached the peak and over the broad top I encountered moisture. As if this mountain were so high that it thrust up, through and over the

clouds which left a sweet, fragrant dew. My tongue collected the dew. My tongue was a honey bee collecting the essence of life. I could smell, taste and feel his youth. The sweetness of this boy dew tantilizing my taste buds.

My lips stretched wide to accomodate this monster machine of love. And just as I took the head in my mouth he came.

"Oh Jon, I'm cumming. I'm cumming. I couldn't wait. Feel my cum in your mouth. Oh Jon, swallow all my cum. Swallow it all."

He came with such force that it forced its way to my throat and down. It was several moments before the tide subsided enough for me to begin to suck that great head and to taste his young boy juice. And yet he continued to cum. Great torrents, great rushing waterfalls of cum.

All the cum I' d tasted the many times I'd sucked cock in my twenty-five years had the slight taste of salt.

But not Terry's.

His cum was ambrosia. His cum was sweet and light as if it were an ice cream mixture. The taste of his cum left me gasping for more.

His cum continued. How could such a slim body contain so much love juice?

As the tide subsided, I began to suck that massive tool. Forcing my mouth down the straining shaft. The shaft that had not diminished in size at all, even though he'd had the most extended orgasm I'd ever encountered.

"Jon . Jon. Jon. Let's get on the bed so that I can touch you. So that I can suck you again like I did in that coffee house. Iwant to cum again too. But let's kiss and touch and love."

I stood up and did as he asked. I led him to the bed and lay beside him. We fondled one another as we kissed.

"I love you Terry. You know I've never really loved any one before." After I said this I held my breath, wondering how he would respond. He smiled at me and I could tell the gods had answered my prayers. Then he spoke I knew it for sure.

"I love you too Jon." And with this he turned and took my cock in his mouth, twisting so that his eleven inches weaved their way into mine.

As we sucked, I thought of the days ahead. Days of love.

As we began to cum minutes later, I thought of my earlier resolve to leave Japan and almost had to laugh. As I tasted his cum again and felt his throat swallowing my own, Iknew that someday, when he was old enough, we would live together. Love together.

Me and my blonde, thirteen year old, grecian god of a Geisha Boy.

Games People Play at The Baths

by JOHN LeROY

There was once a time when I thought that everyone who went to the baths did so for sexual gratification, to meet new friends, find a new mate, and, in general, to enjoy the steam, shower, sauna, and pool facilities. Now, I know better. There are a considerable number of gays who frequent bath houses for none of these reasons. They are there to use sex as an instrument for fulfilling some sort of ego need, usually in an irrational way. Here are some examples:

1. THE SHOPPER: You'll find him peering into every room, and sizing up every passer by. He has to sample every available specimen on the premises and only when he has finally found the very best to be had will he deign to have sex. For him, the height of humiliation is to accept something less when he might have gotten something better. Since, even under the best of circumstances, there are only a limited number of Adonises to go around, he goes home frustrated most of the time.

2. THE VACUUM CLEANER: This character stays up nights practicing his oral technique. His sole reason for existing on this planet is to give blow jobs. When he is in a bath house, he is in seventh heaven, and his chief ambition is to go down on everyone. He'll work his way through the orgy room, down the corridors, and into the steam room, and is not content to go home until he feels certain he hasn't missed anyone. The only part of your anatomy that interests him in any way is your penis, and should you have the temerity to refuse him, his ego is shattered.

3. THE VOYEUR: He spends most of his time in the orgy room, but he's not there to participate in random or group sex. He's there only as a spectator, and takes a vicarious interest in the proceedings the way a football fan avidly follows the Rose Bowl. Don't try to approach him, for if you do, he'll walk away and situate himself atop one of the bunk beds in order to get a grandstand view. If a lot of action is taking place, he'd rather jerk himself off than ever dream of participating, for that might divert his attention.

4. THE PERFORMER: He's the very opposite of the voyeur. In fact, he's the one the voyeur has come to see. He is not happy unless he can be the star of the orgy room, and will not stand being upstaged by anyone. He will writhe, squirm, jerk, yell, scream, dance, and carry on while engaging in the most exhausting sexual acrobatics imaginable, not so much to gratify himself, but to gain your attention. These people are usually frustrated dancers or models, and should you try to have sex with them, they'll go along with you only to the extent that you follow their implied directions. They have the entire scene orchestrated and choreographed in their own minds, and subconsciously audition all their partners. To win a round of applause after their "performance" is, for them, their reason for being there.

5. THE STATUE: This cat is enamoured of looking at himself in the mirror, and has truly fallen in love with his own reflection. He has not come to the baths to have sex. He has come there to pose and be looked at. He carefully rearranges his room like a department store window, wrapping his towel around the lamp so that he can display himself under the spotlight. To watch people stare at him as they go by is the thing he really grooves on. He'll assume the position of a water nymph, a loiterer, or a sergeant at arms. You've got to pull his dong to bring him back to life.

6. THE COUPLE: They are always in pairs, and they are lovers on the verge of breaking up. They go into jealous rages over each other, but are determined to prove to each other that they can remain faithful by going to the baths to have sex together. One will never let the other out of his sight, not even at the toilet bowl. Should you show an interest in either partner, you'll get a pained explanation: "we're married, dahling!"

7. THE REJECTER: You'll find him displaying himself seductively in his room, but unlike the statue, he's there to encourage you to walk in for the exquisitie delight of throwing you out. He'll use excuses like, "I'm just resting," or "Not right now." Of course, I have nothing against refusing those you don't want, but the rejecter doesn't want to find anyone acceptable. He only wants to put people down. He feels good when he does, but then wonders why he goes home emptyhanded and depressed.

8. CINDERELLA: He's something like the rejecter. He'll also make a big display of himself in his room, and turn down most everyone who walks in, not so much because he likes to reject them, but because he's waiting for Prince Charming to walk, sweep him off his feet and into his golden Cadillac coach waiting outside, and to carry him off to his castle where he'll live happily ever after.

9. THE SHOW-OFF: He's there to let you know that he could make out with just about anybody if he wanted to. He'll find the best-looking guy on the premises, and parade with him up and down the halls, the lounge, the restaurant, the pool side, the steam room, and the dormitory. He doesn't necessarily want to enjoy him sexually. He wants to be seem with him and incite the envy of everyone else there less attractive.

10. THE JADED: He's had so much sex so often he's there more out of force of habit. He sees the bath house as a place in which to speculate and philosophize on the nature of the human condition. He doesn't want a sex partner or even a new friend. He wants a listener, preferably a captive one, upon whom he can expound his depressing and nihilistic philosophy.

11. THE TIGER: He considers himself the height of virility. He'll slam you down on the mattress, throw your legs into the air, pump away as if there were no tomorrow, and bite, scratch, and claw until you are bruised and bloody. More important to him than enjoying a good orgasm is to convince you that he is a pure raw primeval animal, untamed by the conventions of civilization, and he'll put his marks on you to prove it.

12. THE RECORD SETTER: He's not there so much to enjoy sex when it feels right and natural to do so. His ultimate goal is to hold the world's Olympic title for achieving the greatest number of successive orgasms in the shortest period of time. No sooner has he finished ejaculating when he's already jerking himself off again or chasing after another partner, so as not to lose any time in between. Should you find him later, dead from exhaustion, his penis shriveled and bruised, he'll feel it was all worth it if he came more often than anybody else.

13. THE GOURMET: Like the jaded, he, too, is bored with ordinary sex, but unlike him, he doesn't come to the baths to philosophize. He's there to find new partners, new techniques, and new positions. He'll give you poppers, start licking you between your toes, under your armpits, and other less used erogenous zones like a master chef trying out a new sauce. He'll perform fellatio on your left testicle because he's tired of cock. Whether or not you or he reallys enjoys it is besides the point. He has himself a new delicacy.

14. SUPERSTUD: He considers himself the great All-American he-man, usually is quite muscular, but is there not so much to have sex with you as to dominate you. Like the tiger, he way be quite violent, he may be quite wild, but unlike him, he wants to let you know who's the boss, and you'd better submit if you know what's good for you. It goes without saying that superstud will never assume any passive roles, and the thought of reciprocating is totally anathema.

15. SUPERFEMME: He's the one most compatible with superstud, for he wants nothing more than to be dominated, flung about, and penetrated, orally, anally, or both. He walks about as if he were a combination of Mae West, Tallulah Bankhead, and Joan Crawford. Instead of towels, he will sometimes wear panties.

Of course, there are many more types of characters who play all sorts of other games. After all, a bath house strips us all down to a towel or a robe and makes sex the common denominator. How we think, act, and feel when in that kind of environment tells us a good deal about who and what we really are. If you're really a healthy, altogether person, you won't need to play any games.
